

*“We’ve had over 750
UA-trained craftspeople on
our jobsite. They manned up
quickly and met our schedule
dates. Scheck provides a
great labor force and truly
professional project
management.”*

*–Ralph Wilson,
Site Construction Manager,
The Shaw Group – Stone & Webster*

new generation

If you want to know what makes Scheck Industries excel at pipe fabrication and installation, instrumentation, system turnover and start-up assistance, just ask our clients such as Black & Veatch, Calpine, ConEdison, Fluor Corporation, GE, Kvearner Songer, Mitsubishi, NEG-National Energy Group, Orion Power, PSEG, and the Shaw Group.

They'll tell you our experienced project teams provide scheduling, cost management and productivity that ensure timely completion of every generation project. We've completed BOP centerline and underground phases on more than 50 projects, generating over 13,000 MW of new power nationwide since 1999.

Satisfied customers are the reason Scheck has developed a reputation for quality performance, integrity, value and cost effectiveness.
