

“I have worked with Scheck on two major paper machine rebuild projects in the last five years. The Scheck organization worked in a professional, timely and cost-effective manner, making adjustments in manning or scheduling when necessary, and was an integral part of the rebuild planning effort. I wouldn't hesitate to consider them for any future project work.”

*–Michael R. Webber,
Director of Maintenance
& Engineering, Madison
Paper Company*

Scheck has become one of the top mechanical contractors in the nation and a leader of mechanical systems for the pulp and paper industry. Our professional team employs the latest scheduling and project management procedures to ensure that deadlines are met, design and details are accurate, and quality standards are integrated into all of our processes in accordance with your specifications. Our value-added piping solutions have attracted such prestigious companies such as Kimberly-Clark, Mead, Wausau Mosinee Paper and Champion Paper.
