Scheck Announces New Sales and Business Manager for Industrial Construction Contracting

COUNTRYSIDE, IL (September 9, 2015) – Scheck Industries (www.goscheck.com), a national, full-service industrial piping, mechanical, boiler and process controls construction contractor, named Michael P. Rother as business development and sales manager, a newly created position representing continued expansion of Scheck's leadership team. In this role, Rother will focus on business development and sales.

"Mike brings an exceptionally diverse range of experiences and leadership skills to Scheck and does so when the market is providing incredible opportunities to grow our business and expand our offerings," said Randy C. Peach, president and CEO, Scheck Industries.

Rother has over 40 years of experience in construction management and project execution, sales and business development, client relationship building and labor relations. Since early 2008, Rother worked for Prairie State Generating Company (PSGC) during construction of the new Prairie State Generating Company Power Plant, a \$4+ billion, 1,600 MW supercritical coal-fired power plant project. At Prairie State, his roles included contracts manager, corporate director of contracts and industrial relations, and corporate director of security and industrial relations, responsible for leading contracts and procurement, security and labor relations for PSGC and the several subsidiary facilities that make up Prairie State Energy Campus.

Rother previously held leadership positions with St. Louis-based Murphy Company and Phillips Getschow Company, as well as mechanical contracting companies Strange and Coleman, Inc. and Brooks Erection, Inc. Key responsibilities included project management, labor relations, turnarounds (outages and shutdowns), major capital and maintenance projects, business development, and sales. Rother has served as an employer trustee of several local unions, served on several labor negotiations and tripartite management committees, working with local, national and international union leaders in the Pipefitter, Boilermaker and Ironworker Unions.

Professional business affiliations include serving as vice chairman of the Council of Owners and Construction Associates, Inc. (COCA), a board member of the Southwestern Illinois Leadership Council (SWILC) and member of the SWILC Labor-Management and Manufacturing Committee. Rother also served as a Full Board Member-At Large for the IBB Boilermakers Great Lakes Area Apprenticeship Program as well as Managing Board Vice President of the Great Southwestern Illinois Plumbing and Mechanical Association.

In addition to earning a bachelor of science degree in civil engineering from the University of Missouri (Rolla and Columbia), Rother is a graduate and Board of Directors member of the FBI Citizens Academy (Springfield, Illinois division), a member of InfraGard FBI Springfield Chapter serving as a Co-Sector Chief for the Electric Sector, and a graduate of the St. Louis County Police Department "West County Citizen Police Academy."

About Scheck Industries

Scheck Industries, and its group of companies, is a national turnkey industrial contractor, with expertise in the refinery, power/renewable energy, chemical, pulp/paper, semiconductor, food/beverage and pharmaceutical sectors. Scheck provides power and process piping; boiler, instrumentation, pipe and modular fabrication; commercial HVAC; and construction/facility management. Scheck provides multi-jurisdictional labor sourcing as well as innovative web-based cost accounting and scheduling which deliver economies of scale for the world's largest engineering, procurement and construction companies, and many Fortune 500 companies. Scheck employees are dominantly tradespeople with advanced education in construction, and unique cross-training across various market sectors. Respected nationally for award-winning industrial sector safety excellence, Scheck has logged more than seven million in-field man-hours without a single lost-time injury in seven years.
